

MOBILITY & SEATING

Is backwards the new forwards when it comes to pushing? Is hard the new soft for cushions? Here's a look at the new chairs and tech looking to upend the old guard.

eFUTURESAFE HEAD & BACKREST

AMF-Bruns' eFutureSafe Head & Backrest / Seatbelt Anchorage allows wheelchair users with upper extremity issues to drive safely and comfortably. The hand-controlled power adjustment feature provides customized head, back and neck adjustments. eFutureSafe withstands 15G rear and 20G frontal collisions, has an emergency release and meets all applicable regulations.
